Tips for Kindergarten and Grade 5

By Rembrandt and Lucas

We interviewed two grade 5 and two kindergarten classes to find more about their life at Evans Elementary.

Kindergarten:

We asked them good tips for Kindergarten students and they said not to say bad words and not push other people and you shouldn't yell or scream.

They are learning to be a better writer and learning about the letter "G." They are learning to read left to right. There are 17 kids in their class and they are also learning about their own personal space.

The next kindergarten class they like going outside at recess and lunch. They like to play outside with friends. They are all learning to be responsible and respectable of other kids. They are making puppets and initials.

Grade 5:

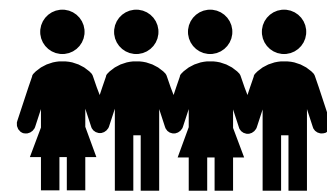

We asked students what their favourite part of grade 5 was.

They said they loved the following: lunch monitoring, skits, being the oldest, my teacher, gum day, fundraisers, office monitoring and learning new things.

They also loved getting the opportunity to choose the things you get to sign up for and volunteer for.

They like doing the run, meeting new friends, and doing new things. They like the newspaper club and getting to do different math.

Many of the students are looking forward to going to middle school next year and seeing Mr. Brooks again!
